

UNITED STATES PATENT AND TRADEMARK OFFICE
CERTIFICATE OF CORRECTION

PATENT NO. : 6,951,465 B2
APPLICATION NO. : 10/603047
DATED : October 4, 2005
INVENTOR(S) : Sweetland et al.

Page 1 of 45

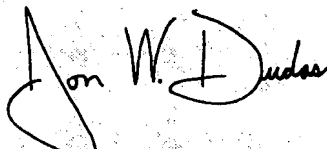

It is certified that error appears in the above-identified patent and that said Letters Patent is hereby corrected as shown below:

THE TITLE PAGE SHOWING ILLUSTRATIVE FIGURE, SHOULD BE DELETED
AND SUBSTITUTE THEREFORE THE ATTACHED TITLE PAGE

DELETE DRAWING SHEETS 1-40 AND **SUBSTITUTE** THEREFORE THE
DRAWING SHEETS CONSISTING OF FIGS 1-41 AS SHOWN ON THE
ATTACHED PAGE.

Signed and Sealed this

Twenty-eighth Day of August, 2007

A handwritten signature in black ink, reading "Jon W. Dudas". The signature is written in a cursive style with a large, stylized "J" and "D".

JON W. DUDAS
Director of the United States Patent and Trademark Office

(57) **ABSTRACT**

Multiple-contact woven power connectors are provided that have at least a first set of loading fibers and at least a first set of conductors. When woven onto a set of loading fibers, the conductors define a space. The loading fibers are capable of delivering contact forces at the contact points of the conductors. The conductors can include a power circuit or a return circuit. The power connectors may also include tensioning springs that are capable of generating tensile loads within the loading fibers. The power connectors may further include mating conductors that can be coupled to the power/return circuits. When disposed within the first and second spaces, respectively, electrical connections between the conductors and the mating conductors can be established.
